ABOUT INTREPID

- ◆ A leading international services company for more than 65 years, **Intrepid** is a privately held Large Business that provides a broad spectrum of services and solutions to U.S. and international government agencies and organizations.
- ◆ We have been in austere OCONUS environments since 2003 as one of the first DoD contractors in Southwest Asia (SWA) and are still there today.
- ◆ Specialize in supporting expeditionary requirements through a unique **Intrepid**-internal organization to ease global deployments, the Global Mobility Center.
- ◆ **Intrepid** operates (or has recently operated) in more than 110 locations in 27 countries worldwide.
- ◆ **Intrepid** has designed, integrated, fielded, implemented, operated, maintained, and/or sustained complex IT and communications networks and solutions in dozens of countries spanning 6 continents, including remote areas and conflict zones.
- ◆ Readiness Management Services (RMS), a fully-owned subsidiary of **Intrepid**, provides Facility Support Contract/Base Operating Support (FSC/BOS), Air Traffic Control (ATC) and Air Traffic Management (ATM) services on a global scale.

CERTIFIED BEST PRACTICES

As a values-based, quality-focused organization, **Intrepid** adheres to industry best practices and compliance guidelines, including:

- ◆ International Standards Organization (ISO) 9001-2015 (Quality Management)
- ◆ ISO 14001:2004 (Environmental Management)
- ◆ ISO 18001 (Health and Safety Management Systems (UK))
- ◆ ISO 45001 (Occupational Health and Safety)
- ◆ ISO 27001 (Information Security Management)
- ◆ ISO/IEC 20000 (IT Service Management)
- ◆ AS9100D (Quality Management (Aerospace))
- ◆ National Institute of Standards & Technology (NIST) SP 800-171 (Protection of controlled unclassified information (CUI))
- ◆ NSA Commercial Solutions for Classified (CSfC) Trusted Integrator with working project experience
- ◆ Our purchasing system is approved by the Defense Contract Management Agency (DCMA) for Labor and Material Purchases, and our subcontractors confirm compliance with all applicable laws, regulations, and policies.

BELIEFS AND PRINCIPLES

VALUES CHARTER

We Will:

- ❖ Practice Intellectual Curiosity and Rigor
- ❖ Act with Integrity and Humility
- ❖ Provide Inspirational leadership and followership, enabled by empathy
- ❖ Act nicely, responsibly and swiftly
- ❖ Act with resolve, adapting to and embracing change
- ❖ Allow ourselves and others to be happy and successful
- ❖ Pursue growth and learning
- ❖ Partner with colleagues, customers and community for our mutual success

**Positive thought, trust, teamwork and passion preserve
a virtuous cycle of personal and professional growth.**

CONTINGENCY OPERATIONS

CONTINGENCY OPERATIONS

- At the forefront of global engagement, we provide comprehensive support services including **power, temporary and permanent facility operations, food services**, and **haul and install** operations tailored to customer operations within the realm of US Government contracting Contingency Operations.
- We're engaged responding to activities safeguarding national interests across the globe. We actively contribute to the planning, preparations, and operational support, collaborating with our customers to ensure effective responses to these critical activities. Our commitment extends beyond the initial response, providing dedicated follow-on support throughout the entirety of the operation.

AIR TRAFFIC MANAGEMENT

AIR TRAFFIC MANAGEMENT

- In austere environments, we serve as the premier provider of Air Traffic Management (ATM) and related services for both military and commercial clients. Our certified personnel excel in controlling aircraft across operational airspace, including roles in **RAPCON**, **Tower**, and **Area Control Center**. We specialize in establishing and maintaining Letters of Agreement (LOA) and Memoranda of Understanding (MOU) that seamlessly connect all facilities, airspace, and border countries.
- Our expertise extends to **Airfield Management**, where we ensure efficient functioning of ATCALS (Airfield Traffic Control and Landing Systems) through meticulous maintenance of navigational equipment. Additionally, we offer dedicated support in **Meteorology** and **Navigation**, contributing to the overall safety and effectiveness of air operations in challenging and dynamic environments.

SUPPLY CHAIN & LOGISTICS

SUPPLY CHAIN & LOGISTICS

- Our team excels in Supply Chain Management & Logistics for US government contracts worldwide, with expertise in **procurement, logistics, and asset management**.
- We integrate DoD and commercial best practices, focusing on strategic planning, global alliances, and technology integration to enhance value. We prioritize customer service, resource stewardship, and supplier relationships, ensuring compliance, sustainability, and diversity.
- Our commitment to excellence and continuous improvement positions us as leaders in **Global Supply Chain Management** and Logistics.

FACILITIES OPERATIONS AND MAINTENANCE

FACILITIES OPERATIONS AND MAINTENANCE

- Leading in US government contracting for Facilities Operations & Maintenance, we fill critical needs of U.S. Government missions worldwide. We specialize in managing, maintaining, and operating key national facilities, emphasizing safety and innovation to boost efficiency for our clients.
- Our services cater specifically to U.S. Deployed Forces, encompassing **Engineering & Construction Support**, comprehensive **Base Operations Support**, **Civil/Structural and Electrical Maintenance**, **Fire Safety** services, **Airfield Lighting**, **Custodial Services**, and both **Temporary and Permanent Power Solutions**.
- We also excel in providing top-tier **Installation/DFAC** (dining facility) services, addressing the full range of our clients' operational needs.

INFORMATION TECHNOLOGY & ENGINEERING

 **Intrepid**

INFORMATION TECHNOLOGY & ENGINEERING

- We're leaders in Information Technology (IT) and Engineering for US government contracting, focusing on DoD missions worldwide. We offer comprehensive IT, Cyber Operations, and Engineering Solutions, excelling in **IT Network Engineering**, **Cybersecurity**, and **Systems Engineering** to meet our clients' unique needs.
- Our services include **SATCOM and Communications**, **CBRNE Engineering**, **Logistics Support**, **ISP/OSP Infrastructure**, **AV Solutions**, **Secure Wireless communication**, and **ISR Services**, enhancing mission effectiveness with state-of-the-art technology.
- Dedicated to technological leadership, we provide unmatched expertise in IT and Engineering to support DoD's global missions.
