

POWERING CRITICAL MISSIONS WORLDWIDE

Reliable Energy Systems for Essential Operations

ENSURING **POWER RELIABILITY** IS ESSENTIAL TO AVOID MISSION FAILURE AND PROTECT DEFENSE READINESS

OPERATING EFFECTIVELY IN **HARSH ENVIRONMENTS** FROM ARCTIC COLD TO DESERT HEAT AND COMBAT ZONES

RECOGNIZING ENERGY AS A **STRATEGIC ENABLER** THAT TRANSFORMS POWER DELIVERY INTO A COMPETITIVE ADVANTAGE

DELIVERING **UNINTERRUPTED MISSION SUPPORT ANYTIME, ANYWHERE** TO SUSTAIN CRITICAL OPERATIONS

POWERING MISSION SUCCESS WITHOUT COMPROMISE

Overcoming extreme conditions to ensure uninterrupted defense readiness and life-saving operations

TAILORED POWER SOLUTIONS FOR CRITICAL MISSIONS

Intrepid's modular, rapidly deployable power plants deliver scalable, rugged energy anywhere it's needed most.

Rapid deployment ensures power availability in remote and relief zones without delay

Modular, containerized design allows flexible configuration and easy transport

Scalable output from kilowatts to megawatts to match mission requirements

Rugged and mobile operation built to function reliably in extreme climates and rough terrain

Enables **flexible power delivery** tailored for unique demands of critical, global missions
